**to STEICO SE**

STEICO offers its customers ecological construction products from renewable raw materials and has been able to position itself in its thirty-five-year history as a system provider for ecological house building and innovation drivers. As the industry's only manufacturer, STEICO offers an integrated timber construction system that complements insulation materials and structural components.

To strengthen our team we are looking for a

**Zimmerermeister/Bautechniker als Konstrukteur für den  
Holzelementbau (m/w/d)**
